What makes us **Unique?**

End-To-End Service

Securing government documents and licenses is a time taking task and sometimes benefits like subsidies are paid in a phased manner as and when the project matures. JKG Team assists you throughout this span until the clear completion of the project and its due paper process.

Attention to all Clients

The application and the subsequent paperwork are subjected to strict scrutiny, it takes experience and expertise in framing them and we do it on a daily basis. JKG executives are trained professionals in getting applications to navigate through the process and hit the desired outcome whatsoever.

Long Term Commitment

Documentation plays an integral role in issuing a green signal to your project. Since the paperwork undergoes a process of tight scrutiny from the implementing agency, a small mishap can amount to the rejection of the entire application. We ensure the documentation process is up to the mark and leaves no reason for the termination and also ensure that our client get full benefit, as applicable.

Single Window Service

A complete application with all its documentation done right requires the assistance and involvement of a whole bunch of professionals from across the fields like Chartered Accountants, Engineers, Bank Staff, Lawyers, etc. Thanks to JKG Team broad network, a community where all requirements of an application are met within a single window.

Why Should You Opt us?

40 long years of experience and hence expertise in the subject matter related to DGFT, Excise/GST & Customs Clearances etc.

Software Enabled Service

We are well versed with sophisticated ERPs and other software systems to aid us in delivering swift and efficient services.

Brief Guidelines On EPCG Scheme

We would like to inform you that there is one scheme called EPCG Scheme which is available on purchase of both indigenous (GST) and imported Capital Good and available to any new unit, old unit or unit going for expansion. This scheme is available in addition to any other subsidies/scheme and it does not conflict with any other subsidies/scheme or export benefits.

For Purchase from Indigenous supplier (GST)

If this EPCG scheme is opted by a unit, before purchase (i.e. before issuance of Tax Invoice) of Indigenous capital goods/machinery from manufacturers, then Govt will refund 100% GST amount, so charged, through RTGS within 60 days (approx.) from the date of installation, to the EPCG Holder (viz. Rice Mill/ Flour Mill / FRK Plant / Ethanol Plant / Animal feed plant etc.)

The EPCG scheme benefits will not be available, in case the Tax Invoice against purchase of Indian Capital Goods/ Machinery has/have already been generated before issuance of EPCG & Invalidation letters.

In case you are opting for EPCG scheme benefit, please ensure that the tax invoice is raised by your Indigenous suppliers only after the EPCG and Invalidation letters/ orders are issued.

For Purchase from Foreign Supplier (Import)

In case of Imported Capital goods/Machinery 100% import duty including IGST and other applicable duties will be exempted under the EPCG scheme i.e. No duty is to be paid.

Other Conditions

Under the EPCG Scheme, Export Obligation equivalent to six times of the duty saved is required to be fulfilled in a span of 6 years.

Additionally Export Obligation period of two more years can be availed by the EPCG holder, if required.

There is a flexibility of completing the Export Obligation, by Direct Export or Third Party Export (supply to exporter) or Deemed Export.

The Government has recently allowed export made in INR to Nepal & Bhutan under the INR Vostro Account Mechanism and hence the Export obligation can now also be fulfilled in INR by
